

MM137 Assignment #3

You will create a single page that will act as a download/share page for one of the songs below. Your page dimensions are 900 x 600 pixels, in a horizontal or vertical configuration. The page should be designed with the song in mind. There must be some visual relationship between the look of the page and the content, feel, style, or lyrics of the chosen song. Your download/share link should have a graphic and textual element to it. If the user disabled images, they should still be able to find the link in a well-designed space. The text in the file, mm137linktext.txt must be included in your page design to represent a text description of the artist or song.

IF YOU CHOOSE one of the cover songs, you MAY create a design that speaks to both songs and provides a link to them both as well.
