

MM137 assignment #1

Taking one of your previous assignments, you will identify basic design elements and themes used. Taking that information you will redo three of your other assignments completed during the quarter.

Turn in:

- A folder called MM137+lastname+FIN. For example a student named John Smith would turn in a folder called MM137smithFIN. In the folder should be:
- The assignment you are basing your new work on
- The three completed new images
- Each image should be a photoshop or illustrator file, depending on what you used to complete the work.
- All the layers should still be intact, so your work can be analyzed.
